Steve, I'll have Dawn make contact with him.

Dawn, see attached info with address where he hangs out.
Kerry

Stephen Seyler
BID Security Director

K [REDACTED] K [REDACTED]
DOB [REDACTED]
From Cambodia

Our Officers Sewell and Watkins met K [REDACTED] on 8-25-15 in the alley behind 6614 Hollywood Blvd. He is homeless. He was very dirty and had a cart to hold his belongings. He looked very street worn, but upon speaking to him the officers learned that he was very articulate and had an interesting history.

K [REDACTED] said that he was born in Cambodia during the Khmer Rouge regime headed by Dictator Pol Pot. Research reveals that they ruled from about 1975 to 1979. It is estimated that 1.3 to 3 million people were murdered by the regime. This from a population of about 8 million.

K [REDACTED] said that he was a young child during this period. He was sponsored by an American couple of Korean and Cambodian heritage and escaped the country. He later came to the belief that they took him in merely for the government check that was provided. He ended up in San Jose, Ca. He did well in school and received a partial scholarship to USC. With the help of a student loan he started college.

He did well the first year, but then joined the partying scene. He dropped out. He said he had a talent for dance and choreography and was able to earn a living. His excessive use of alcohol and marijuana caused him to lose work. He started working in film distribution, but lost interest as his drug use increased. He became homeless about nine months ago and now sleeps on the streets of Hollywood. A few months ago he was introduced to meth and is now addicted. He has lost interest in life including his personal hygiene.

K [REDACTED] is intelligent, but lacks any motivation. He would like to turn his life around, but is very depressed. We hope to introduce him to outreach counselors.
