Hi,

I really can't take the time to do this now...I'm slammed and have BID work to do. I only work part time, as I told you. I'll finish sending what I accumulated to date, and try to work on this idea at another time. The other thing is that I can buy and charge you for a "flash drive" and then I can drop them into that. Trying my best.

Laurie

After you make the PST file, you can send it to Dropbox here:
